

High School Supply List

- Calculators
Algebra I and Geometry - Required: scientific calculator with trig functions; Optional: TI - 83/84 that will be required for Algebra II and beyond
Algebra II, Precalc, Stats, Calculus - Required: TI 83/84; Optional for Calculus: TI - Inspire (email Mrs. Cumming if interested in the possible benefits of this calculator)
- Research/Library Card
A public library card (any city) -- Having a library card allows students to access a plethora of databases, periodicals, and additional resources for research.
- 2 boxes of tissues
- 1 container of Clorox wipes

Additional supplies needed for each class will be communicated in the class syllabus; however, a successful student should have already developed study skills that works for him/her, and we expect students to use those skills to be successful in high school. Essentially, high school students on the first day should have something to write with, something to write on, and something to organize handouts for each class.
